

Adam Kim

❖ Queens, NY

WORK EXPERIENCE

Jovia Financial Credit Union

Jan. 2022 – Current

Cyber Security Analyst

Westbury, NY

- Monitoring and analyzing logs of different technologies (IDS/IPS, Firewall, Proxies, Anti-Virus, SIEM, etc.), across multiple platforms, triage and escalation.
- Assessing the security impact of security alerts and traffic anomalies on networks.
- Conducting research on emerging security threats.
- Network, Email, EDR, & MDM forensics.
- Participating on internal and external pentesting, including purple team exercises.
- Creating comprehensive security write-ups which articulate security issues, analysis and remediation techniques.

Law Offices of Kim & Associates

Jan. 2019 – Oct. 2021

Network Engineer

Flushing, NY

- Managed 25+ desktop PCs not limited to building, upgrading, troubleshooting, and hardening.
- Monitored endpoint management for anomalous behavior, unauthorized apps, and deploying patches.
- Redesigned the physical & logical network infrastructure including segmenting and maintaining private NAS's, CRM, VoIP, and printers.
- As the only individual, my role has extended to cybersecurity:
 - Prioritizing network availability, practicing zero-trust, and strengthening security posture.
 - Threat hunting possible IoC & insider threat via event log, RMM, and manual review.
 - Strengthened WAPS securely for employees and limited access to visitors
 - Authored the 23 CRR-NY-500(e) cybersecurity policy to completion for an associate office, approved by the Department of Financial Services.

HSBC

Oct. 2017 – June 2018

Audio Visual Specialist (MSP)

New York City, NY

- Accountable for site surveys, logistics, deployment/configuration/decommissioning of telepresence systems.
- Facilitated multiple ongoing projects simultaneously from start to completion.
- Monitored conferences of up to 50 individual mic'd participants at one time. (All participants on-site)
- Provided white glove customer service and communicated effectively with clients including system training.
