I GOT VACCINATED

WORK EXPERIENCE

Jovia Financial Credit Union   Jan. 2022 – Current
Cyber Security Analyst   *Westbury, NY*

- Executed Arctic Wolf SIEM deployment as the project lead.
- Coordinated as SecOps to deploy NAC 802.11x, 1x (Cisco ISE) profiling.
- Monitored security alerts though the use of SIEM to respond, triage, or discern false positives.
- Responded as Incident Response, during incidents.
- Assessed the security impact of security alerts and traffic anomalies on networks with security tools: EDR (Crowdstrike), DLP (Dtex), NGFW (iBoss), etc.
- Evaluated (OpenVas) vulnerability scans and remediating critical vulnerabilities.
- Created comprehensive security write-ups which articulate security issues, analysis, and remediation techniques.
- Conducted vendor evaluations, SOC2 reports on new security tools & reviewed policies to align w/ company strategic goals.
- Responsible for gathering and responding to assessment/audit requests for information.
- Screened weekly cybersecurity training to users to ensure the material met company standards.
- Actively participated on internal penetration testing and red team engagements.

CyberSeidon   Oct. 2021 – Current
Technology Specialist (Self Employed - Part Time)   *New York City, NY*

- Facilitated IT projects for small to medium sized businesses from scoping of design to project completion.
- Unified and redesigned network topologies for mismanaged networks.
- Provisioned new endpoints, re-imaged, upgraded, and or securely destroyed.
- Advised on vendor engagements involving new technologies to be deployed.
- Developed static front end scalable business websites and SEO management.

Law Offices of Kim & Associates   Jan. 2019 – Oct. 2021
Network Engineer   *Flushing, NY*

- Redesigned the physical & logical network infrastructure including segmenting and maintaining private NAS's, CRM, VoIP, and printers.
- Managed 25+ endpoints not limited to imaging, upgrading, troubleshooting, and hardening.
- Monitored endpoint management for anomalous behavior, unauthorized apps, and deploying patches.

Extended role to cybersecurity:
  - Prioritizing network availability, practicing zero-trust, and strengthening security posture.
  - Assessed threat hunting, investigating IoCs, insider threat, and organized cybersecurity training for users.
  - Authored the 23 CRR-NY-500(e) cybersecurity policy to completion for an associate office, approved by the Department of Financial Services.
